Re: Internet Materials
Dt: December 18, 1998

This memo is to document a conversation we had regarding your use of Internet services on school equipment during school hours. As I mentioned to you in our discussion, some different students reported to Mrs. DeMarco and to me that they saw inappropriate pictures on your computer screen during class time in your room. Specifically, these students reported that they saw pictures of nude people on your screen. When I brought this concern to your attention, you did not deny the incident occurred. You explained to me that while "surfing the net" you came upon some seemingly innocent sites, but when you brought this material to the screen, they actually did contain nude images. You explained that you thought our Cyber Patrol would prohibit any such images, and you were surprised when such material did appear on your screen. Matter of fact, during our discussion in your room, you demonstrated this occurrence by bringing up an innocently named site, which actually produced a nude photograph on your screen.

I do not believe your actions were ever malicious or corrupt. I have no reason to doubt your word about the innocence of your browsing. As building administrator, however, I feel I must provide you with some guidelines so these concerns do not surface again. First, I do not think it is prudent for a teacher to be browsing unknown sites that could produce questionable material while students are in class. If you do not know what may come up on your screen, then do not search for such material during student time in the room. This eliminates any possibility that students could see objectionable material in your room. Second, I must ask that if, at any time, any type of pornographic or objectionable material is produced on your computer you would notify me immediately. This puts me on notice that the potential for controversy exists, and we can "head it off at the pass." This also demonstrates your willingness to clarify a technology problem, as opposed to hiding it by not bringing it to an administrator's attention. It also allows us to better define the parameters for our Cyber Patrol by reviewing sites that get through the security program.

Again, I have no reason to question your explanation of these incidents, and as such, I consider the matter closed and resolved. If, for some reason, pornographic type material would continue to be displayed on your computer, then disciplinary action would need to be taken. I sincerely do not believe this will ever need to be the case.

If you have any questions, please contact me.

To all Girard Parents of Middle School Students

Are you aware that Students at the Middle School HAVE SEEN a teacher viewing PORNOGRAPHY, (During Class) on the Inter net, on several different occasions?

A complaint HAS been made by some students and parents to the principle and superintendent. This teacher continues to sit in a classroom with our children.

If you're a Concerned Parent, Please contact your principal and superintendent and voice your opinion.

Policy Committee – June 19, 2000

Attendees: Bob Heath, Roger Sanders, Scott Beam, Doug Wright, Marilyn Vargulich, Bill Bonnett, Wally Blucas, Gary Faulkner

The Committee discussed the sexual harassment policy. There is concern among the Committee because steps/procedures are being eliminated from the revised policy and the lack of specificity. Mr. Blucas said due to the last incident, the steps in the current policy handicapped the legal position of the District. Attorneys Perhacs and Wassell have been working on various policies for other districts and their experience with court cases leaves them with the opinion that not having the steps in the policy is more of an advantage than having the steps in the policy.

Mr. Heath expressed his concern that there are some many gray areas in the policy. Mr. Wright explained that sexual harassment is such a new area in terms of the law and changing every day that the recommendation is to not bind yourself with steps and specific definitional situations.

Mr. Blucas will check with PSBA regarding an update of sexual harassment policies. Mr. Blucas also said he could check with Dan Miller, Chris McClure, Mark Wassell/Rich Perhacs and possibly someone from PSBA to come and do an overview of sexual harassment for the Committee.

Next meeting – August 21st at 6:30 p.m.

Policy Committee – August 22, 2000

Attendees: Roger Sanders, Marilyn Vargulich, Scott Beam, Bob Heath, Doug Wright, Kelly Weidler, Wally Blucas

The Committee reviewed the following topics:

WEB Page Standards – The Committee reviewed the “web page standards” that were previously distributed.

Mr. Heath said he reviewed the policy from Chambersburg School District and noted that their Internet policy includes the WEB page policy within it. Mr. Heath feels that this is good in that everything is in the policy manual in the same area.

A discussion took place about appointing a Web page administrator. The Committee prefers the language of “principal or his/her designee”. It was suggested having Solicitor Miller review the Chambersburg policy as a guide with the Web Page Standards that has already been developed and combine the two. Mr. Blucas noted that two people in the high school and middle school will be handling the web master duties as part of their teaching schedule this year.

Mr. Wright suggested getting the policy “ready”, but feels the time is not good to implement at the present time.

Scott Beam presented some questions from Karen Golubic and Rich Radock regarding the Web Page Standards Policy. The Committee reviewed this list and discussed it further. It was the consensus of the Committee to send the information to Solicitor Miller to be considered with the drafting of the new policy.

Sexual Harassment - After reviewing sample copies from other school district, Mr. Heath feels the district should be addressing ethnic harassment as well as harassment in general. Mr. Blucas is still checking with the attorneys to see if they could do a workshop on this issue for the Board.

(Mr. Heath also noted that in our PSBA policy manual, there are a few policies listed in the Table of Contents that are not in the actual policy manual - example #219 - Student Hearing and #426 – Complaint Policy. Mr. Blucas thought it was probably due to a generic Table of Contents issued from PSBA.)

Charter School Policy – Mr. Blucas said the I.U. superintendents are meeting as a consortium through the Intermediate Unit with the Montessori personnel to discuss their charter school application on September 13th. Mr. Blucas talked with Chris McClure and decided to put the Charter School Policy on hold for the time being. Mr. Blucas also said that hopefully one of the outcomes is that all the schools will basically have the same “Charter School” policy.

AFFIDAVIT OF E [REDACTED] G [REDACTED]

1. My name is E [REDACTED] G [REDACTED]. I reside at [REDACTED]. I was born [REDACTED], and am [REDACTED] years old. I will be attending Liberty College in Virginia in the fall.

2. In the 1998-1999 school year I was in sixth grade at Rice Avenue Middle School in Girard.

3. Sometime during that school year I heard a rumor that my English teacher, Mr. Verga, was looking at pornography on his computer in his classroom. Many times when students entered his room, he would put an assignment on the board that we were to work on in class, and he would be on the computer while we worked. His desk was next to the pencil sharpener, and if we needed to sharpen our pencils, it was impossible not to see what he was looking at.

4. One day another student and I saw him looking at pictures of naked women. We went to the guidance counselor's office and left a note in her box that she called the "safe zone," where students could leave a message about something confidential. We told her in the note that we saw naked women on Mr. Verga's computer.

5. The guidance counselor, Mrs. De Marco, called us to her office. She said she had talked to Mr. Snyder about it. She said it was probably just artwork and we shouldn't make a big deal out of it.

6. Then Mr. Snyder called us to his office several days later for a meeting with him and Mrs. De Marco. They said they had looked into it, and it was either artwork or Mr. Verga was testing the new computer security system. They said we needed not to make a big deal out of it. They made me feel stupid for saying anything.

5a

EL

7. Either at the first meeting with Mrs. De Marco or at the meeting with her and Mr. Snyder, she said we should keep this a secret and not tell anybody.

8. I didn't tell anybody else about it until my friend, H [REDACTED] S [REDACTED] told her mother that I had been told not to tell, and her mother told my mother.

9. During that same school year, I had Mr. Yarbenet for science. He didn't spend much time teaching. We watched a lot of movies and spent a lot of time talking.

10. The girl S [REDACTED] who brought this lawsuit, was a year older, in seventh grade. Every single day, or at least it seemed like every day, S [REDACTED] would come to science class. She would get a pass every day. Sometimes she would sit in his chair, and sometimes they would talk about plans for her to go to his house after school, and sometimes they would go together to the storeroom next to his classroom.

11. Students were jealous of all the attention Mr. Yarbenet gave S [REDACTED]. People would gossip and laugh about their relationship while they were in the storeroom. My impression is that the whole school knew about them. If you said "Yarb's girlfriend," everybody knew who you meant.

12. I saw them together a lot, not just in my science class, but also they would be in his room alone during class breaks, and I would see him giving her rides after school in his car. They were always very close, so close they touched, and he would be flirting with her.

AFFIDAVIT OF WENDY G [REDACTED]

Wendy G [REDACTED], being duly sworn, deposes and states as follows:

1. I live at [REDACTED]
2. In the 1998-1999 school year, my daughter, E [REDACTED] was in sixth grade at Rice Avenue Middle School.
3. A neighbor called to tell me that a month or so previously my daughter had seen a teacher, Mr. Anthony Verga, looking at pictures of naked women on his computer at school, and she had been told not to tell anybody.
4. I questioned E [REDACTED] about this, and she told me that she had seen Mr. Verga looking at naked women on his computer and that she had told the guidance counselor, Mrs. De Marco, and Mrs. De Marco told her to keep this between the two of them and that E [REDACTED] should not tell anyone else.
5. Upon hearing E [REDACTED] story, I met with the principal, Bob Snyder, and Mrs. De Marco and told them what E [REDACTED] had told me.

9a

119

6. Mr. Snyder told me in that meeting that he had talked to Mr. Verga about what he was watching on his computer. Mr. Snyder said that what E. [REDACTED] had seen was either an accidental, one-time thing or it was art. Mrs. De Marco admitted at that meeting that she had told my daughter she should not spread this around but denied telling her that she should not tell anyone. I asked Mr. Snyder whether the school could check Verga's computer and he said no. I felt that Mr. Snyder and Mrs. De Marco were trying to give the impression that they had taken care of what was an accident.

7. I was not satisfied with their explanation, so I called the superintendent, Wally Blucas. He was not polite in our conversation and in fact was rude to me. The conversation was so short that I can't even remember what was said, other than that he said Verga's action was a "one-time thing."

8. Consequently, after having talked to both Mr. Snyder and Mr. Blucas about this, I went to a school board meeting in early 1999 and signed up to speak. I asked why the school was letting my daughter be exposed to pornography on a teacher's computer.

9. My daughter gave me a list of other students who had seen Verga looking at pornography. I invited the parents of these students to my house. Everyone at my house that night had different accounts of what their children had told them about Verga's computer use. Some children said they had seen him looking at pornographic pictures of women, some had seen pictures of women with women, and some had seen men with men.

10a

WS

10. Several parents, including me, went to the next school board meeting to express our concern about Mr. Verga watching pornography on his computer in his sixth grade classroom. At that board meeting, one of the board members called us Bible-thumping witch hunters. He accused us of using Nazi tactics.

11. Eventually I learned that Anthony Verga was allowed to resign.

12. A man whose name and title I don't remember called to tell me that Mr. Verga was losing his teaching license. He said that when Mr. Verga's computer was checked by the school district, they found that he had accessed pornographic sites more than 300 times.

13. My daughters E[REDACTED] and A[REDACTED] (twins) both had Gregory Yarbenet for science that same year, 1999-2000.

14. When Yarbenet was arrested my children told me that they were not surprised or shocked. They said it was common knowledge among the students at the school that S[REDACTED] and Yarbenet were acting like boyfriend and girlfriend. My daughters told me that the kids would often joke, "Here comes Yarbenet and his girlfriend."

15. My children also told me that when they were in Mr. Yarbenet's science class S[REDACTED] would come in and she and Yarbenet would go into the storeroom next to his classroom. The girls told me that the kids would giggle and joke about what was going on in the storeroom. I asked my children whether they ever reported it, and they said why would you report something that everybody knew.
